

Brothers - Daedalus - Elphinstone

Marineparktour 21.10.2023 - 28.10.2023

The Red Sea One offers both divers and non-divers plenty of space and room to relax and offers everything for unforgettable holidays in a familiar atmosphere.

With her 13 guest cabins she can accommodate up to 26 guests.

All cabins are equipped with a fridge, an individually controlled air conditioning and an ensuite bathroom.

The so-called "BDE tour" is the classic marine park tour. It is an outstanding experience and offers a high potential for big fish encounters. The dives are sometimes a bit more demanding due to the currents at the exposed dive sites. Therefore, this tour is recommended for experienced divers. **Min. Advanced Open Water Diver with 50 logged dives.**

The **Brother Islands** are two small islands about 60 km east of El Quseir in the middle of the Red Sea, Big Brother and Little Brother. They are without a doubt one of the best diving spots in the world. You can often see gray reef sharks, thresher sharks, hammerheads or white tip deep sea sharks.

The **Daedalus Reef** is surrounded by drop-offs and has a plateau on the south side. Schools of Hammerhead sharks are often spotted on the north face, where the conditions are sometimes a bit rough. Dolphins can also keep us company here. In addition to the occasional and overwhelming thresher shark visits, impressive and diverse schools of fusiliers, surgeonfish and mackerel await on the southern plateau.

Elphinstone is also a very spectacular reef with sometimes bizarre currents. Wonderful plateaus, breathtaking steep walls overgrown with gorgonians, wire corals, black corals and soft corals make the diver's heart beat faster. Regularly longimanus and barracudas are coming across, with luck could also be a gray shark or tiger shark.

Schedule:

Check-in 21.10.2023, 3.00pm - Check-out 28.10.2023, 10.00am
